

Hidden Harm: Parental Substance Misuse, Parental Mental Ill-Health and Domestic Abuse

Introduction

The course provides a detailed awareness of hidden harm (toxic trio) and how it affects parents and children.

This course will give learners excellent knowledge of the issues that affect children living with hidden harm. It will help the learner understand the cycle of events each hidden harm stressor produces, and highlights how to spot signs of harm and appropriate times to break this cycle of events to safeguard the child.

Audience

This course is split into eight modules:

- What is hidden harm
- Impact on parenting
- Impact on babies
- Impact on children
- Understanding the family
- Working with the parents
- Assessing risk to the child
- Helping the child

Upon successful completion of this course you will be automatically awarded a certificate containing the course name, completion date, CPD hours and learning objectives.
